AGUINALDO UGLY.

Attack on Manila Delayed For This Reason.

MORE TROOPS AWAITED.

Consul Wildman Sent For to Quiet Aguinaldo.

TENTH PENNSYLVANIA ARRIVED.

Word From Dewey That the Second Expedition Reached Him July 16 and 17. The Stars and Stripes Were Raised Over Another Island, Before the American Expedition Reached Manila Bay. Aguinaldo Named a Cabinet.

WASHINGTON, July 22.—It was reported last night that Admiral Dewey has cabled that owing to Aguinaldo's ugly attitude he must wait for more reinforcements before attacking Manila.

LONDON, July 22.—A Hongkong special received here says United States Consul Wildman has been sent for to try and pacify Aguinaldo.

On the way from Honolulu the Stars and Stripes were unfurled over Wake island, which is a Spanish possession,

EMILIO AGUINALDO.

and lies midway between the Hawaiian and the Philippine islands.

WASHINGTON, July 22.—That Admiral Dewey has the situation in the Philippines well in hand is exhibited by his telegrams, one of which was received yesterday, which without boasting simply reports like the others that have gone before that affairs are quiet and satisfactory. The state department has come to have fully as great a sense of appreciation of Dewey's diplomatic abilities as the country has for his naval skill and courage and the best evidence of this is that it has not found it necessary up to this point to interfere in any way either to protect or to amend his works. The navy department has now discovered that the big double-turreted monitor Monterey will not arrive at Cavite until Aug. 5; that being the advice received at the department from the captain of the vessel when she touched at Honolulu.

The admiral's announcement of the arrival of the second detachment of United States troops at Cavite has given great comfort to the war department, which was not altogether at ease concerning the first small expedition lying between Spaniards and the insurgents and without being able to depend very largely upon either. With these added troops it will now be possible to demand the surrender of Manila, but it is gathered here that our purpose is to defer such a movement until all the United States troops now afloat have arrived in Manila bay, unless the attitude of the insurgents' forces prompts action on the part of the American commanders, military and naval.

MANILA, July 18, via Hongkong, July 22.—Unless the Spaniards surrender in the meantime, Rear Admiral Dewey will bombard the fortifications of Manila by the end of this week, provided the troops are ready to take possession immediately.

The first regiment is already in the field at Paranaque, two miles from Manila.

The Spaniards are reported to have been buoyed up by the hope that the Cadiz fleet, due here on the 16th, would arrive soon, but the news of the destruction of Admiral Cervera's squadron, brought yesterday by the Japanese cruiser Nahaiwa, may lead them to surrender. The insurgents are constantly harassing the Spaniards on both sides of the city, but they are checked by the big guns of the Malate and Santa Mesa forts.

The China arrived on the afternoon of the 16th and the Zealandia, Colon and Senator on the morning of the 17th. Four deaths occurred during the voyage—Lieutenant Lazallo, Private Madrox of the Eighteenth infantry, Surgeon Geddis of the First Nebraska and Weisband of the First Colorado. The others all arrived well. On the Zealandia is the Tenth Pennsylvania regiment.

The German steamer Wustan at this port from Cavite reports that no advance had been made by the American forces. They were waiting the coming of General Merritt, who was expected to reach the place within ten days. The insurgents still invested the town.

The news of the destruction of Admiral Cervera's fleet at Santiago de Cuba was received at Manila on July 17 and created consternation among the Spaniards.

A statement prepared at the war department gave the organizations of troops forming the second expedition to the Philippines, which Admiral Dewey reported as having arrived at Manila, as follows:

Commander general, F. V. Greene. Tenth Pennsylvania, First Colorado, First Nebraska, four companies of the Eighteenth, and eight companies of the Twenty-third United States infantry. Total number of men, 8,586. The expedition sailed from San Francisco, June 15.

HONGKONG, July 22.—Letters received here from Cavite, dated July 18, say that the American transports have hoisted the American flag on an island supposed to be Watt's island.

General Aguinaldo has organized the Philippine cabinet at Bacoor with the following personnel:

President of the council—General Aguinaldo.

Secretary of war—Baldimiro Aguinaldo, nephew of General Aguinaldo.

Secretary of the interior—Leandre Ibaiza.

Secretary of state—Mariano Trias.

It is considered certain that the Philippine islands will never be amalgamated and that they will never return to Spanish rule. Therefore, the only alternative, in the opinion of the best informed people here, is foreign rule, American or British.

WILL KEEP PORTO RICO.

This Practically Official Statement Made in Washington.

WASHINGTON, July 22.—This practically official statement was made to the Associated Press yesterday.

"Porto Rico will be kept by the United States. That is settled and has been the plan from the first. Once taken it will never be released. It will pass forever into the hands of the United States and there never has been any other thought. Its possession will go toward making up the heavy expense of war to the United States. Our flag, once run up there, will float over the island permanently."

The same authority says the future of the Philippines is a matter of development. It was intimated, however, though not definitely asserted, that the Ladrone islands might follow the fate of Porto Rico, and become our permanent possession, being valuable as a coaling and supply station.

SOLDIERS' AND SAILORS' FAMILIES.

Trying to Find a Way to Give Needy Ones Some of the Pay.

WASHINGTON, July 22.—Major John Byrne of New York, president of the Soldiers' and Sailors' Families Protective association, has been in Washington in the interest of a revival of the law of 1861, under which an allotment of the pay of soldiers and sailors was made to the families of volunteers through the pay department of the army. He had a conference with the president and others.

Major Byrne departed for New York much encouraged. The president referred the matter to the secretary of war, who had it made special. The attorney general's department is trying to find a way to re-establish a rule which proved so effective in the Civil war.

CLOSING LIQUOR CANTEENS.

Petitions of Wives and Mothers Effective at Chickamauga.

CHICKAMAUGA PARK, Ga., July 22.—Persistent petitioning and letter writing by wives and mothers of the soldiers has had the effect of closing up three of the regimental canteens at Camp Thomas. It is said that several others are scheduled to go in the near future. Colonel Hartsuff, the chief surgeon at the camp, is not a friend of the canteen and is doing all in his power to discourage the use by the men of alcoholic beverages.

The women of the W. C. T. U. have made an appeal to General Brooke and have gained his sympathy, but he is powerless for the reason that they are provided for in the army regulations.

QUEEN, REGENT'S BIRTHDAY.

Private Mass Celebrated—Receptions and Banquets Suppressed.

MADRID, July 22.—The queen's birthday (she was born July 21, 1858) was yesterday, but "owing to the nation's circumstances," the usual official receptions and banquets were suppressed. The only ceremony was a private mass celebrated in the chapel of the royal palace. The royal family and the court attended this service.

The queen regent has ordered that the customary funds be distributed in the works of charity. There were many visitors at the palace yesterday.

Soldiers Left Gettysburg.

GETTYSBURG, Pa., July 22.—Company M, Fifth Pennsylvania infantry regiment, recruited in Gettysburg and this county, with an addition of about 30 from York, left last evening for Chickamauga to fill up this regiment.

MILES STARTED.

Left With Some of Troops For Porto Rico.

A LARGE NAVAL CONVOY.

Secretary Alger Believes Miles Will Arrive by Sunday.

OTHER EXPEDITIONS UNDER WAY.

It Is Thought the General May Wait at Some Point Until These Reach Him or He May Reach Porto Rico and Land Without Them—The War Department Reported to Be Determined He Shall Not Lack For Troops or Equipment.

WASHINGTON, July 22.—General Miles, leading the military expedition against Porto Rico, started about 3 o'clock yesterday afternoon from Siboney, Cuba, for the point on the island of Porto Rico, where it is the intention that the troops shall land. It is expected that General Miles will wait at some appointed spot on the route for the expeditions from Tampa, Newport News and New York to fall into his column. These expeditions are already under way, some of them with two or three days' start of General Miles, so that the delay should not be very great. After all the difficulty about the naval convoy, and the first conclusion of the naval authorities that none was necessary, the strength of that now furnished is surprising.

There is a battleship of the first-class, the Massachusetts, an effective protected cruiser, the Cincinnati, a speedy and well-armed gunboat, the Annapolis, and three vessels of the auxiliary navy, which have already proved by their performance in Cuban waters that they are fully equal to the ordinary gunboat in offensive power. These are the Gloucester, which distinguished herself in the destruction of Cervera's squadron, the Wasp, which has attained an enviable notoriety as a disturber of Spanish blockhouses, and the Leyden, which for a time was the sole representative of United States power in Havana harbor.

Secretary Alger believes that General Miles, on the Yale, will arrive at his destination Sunday morning with 3,000 men under his immediate command. A day later will come 4,000 men on transports and the day following that 3,500 more. Whether the landing will be deferred until the arrival of this entire force or whether General Miles will take the initiative and hoist the flag himself on Porto Rico soil is left to the discretion of that officer. It is the department's determination that he shall not lack for troops or equipment, and this first expedition may be followed by several others as fast as the troops can be gotten ready until word comes from the general that he needs no more.

General Schwan's brigade, comprising the Fifth, the Eleventh and Nineteenth United States infantry, a splendid body of trained soldiers, sailed from Tampa yesterday to join General Miles, and if the Porto Rican expedition is not an immediate success it will not be for lack of disposition in the war department to supply every requisite.

CHICKAMAUGA, MILITARY PARK, Ga., July 22.—It looks as if at least two-thirds of the troops at Camp Thomas are to be ordered to the front as an expeditionary force to go to Porto Rico under General Brooke.

The movement is expected to begin today, when the Second brigade of the First division, First corps, commanded by Brigadier General Haines, is scheduled to leave for Newport News.

The regiments of the brigade are the Fourth Ohio, Third Illinois and Fourth Pennsylvania.

While General Brooke in person has nothing to give out for publication one of the most prominent and best posted officers of the First corps admitted yesterday that it was the purpose to move the entire corps, which numbers about 36,000 officers and men. The regiments of the First corps are: Fifth Illinois, Third Wisconsin, First Kentucky, Third Illinois, Fourth Pennsylvania, Fourth Ohio, Sixteenth Pennsylvania, Second Wisconsin, Third Kentucky, Thirty-first Michigan, One Hundred and Sixtieth Indiana, First Georgia, Sixth Ohio, One Hundred and Fifty-eighth Indiana, First West Virginia, Second Ohio, First Pennsylvania, Fourteenth Minnesota, Twelfth Minnesota, First South Carolina, Fifth Pennsylvania, Eighth Massachusetts, Twenty-first Kansas, Twelfth New York, Ninth Pennsylvania, Second Missouri and First New Hampshire.

REV. DR. CORE'S FUNERAL.

The Prominent Methodist Minister's Memory Honored.

WASHINGTON, Pa., July 22.—The funeral services of the late Rev. Jesse Franklin Core, D. D., presiding elder of the Washington M. E. district, were held in the First M. E. church. Rev. Thomas F. Woodring, D. D., pastor of the church, was in charge of the services, assisted by ministers of the Pittsburgh conference. The services occurred yesterday.

VACATION FOR SOLDIERS.

Fifth Corps Likely to Be Brought to the United States.

SANTIAGO DE CUBA, July 20, via Kingston, Jamaica, July 22.—General Shafter has opened a cable office here and is in communication with Washington regarding the disposition of the Fifth army corps, which consists of those troops which came with him from Tampa and the reinforcements from the four transports which have since been unloaded.

The condition of the men now, according to the physicians and commanding officers, is such that the entire corps should return north at once.

General Shafter has sent messages to this effect.

The doctors say the men should be sent into camp in the mountains of North Carolina or Western Maine for a month. Washington agrees to this and will do everything possible, the cable dispatches today say, to carry the army away from here, but there is a lack of transports.

General Shafter has cabled to Washington that it is imperatively necessary that he should have more immunes sent to him quickly, and the probability is that a corps will leave within the next ten days.

All our men are now encamped on the fighting line, where they have been for two weeks, except General Wheeler's men, who have been sent into the hills.

General Wheeler is still ill, but he resists the pleas of his friends to return to the United States.

HELPS PEACE PROSPECTS.

Kindness Shown to Prisoners Creating a Profound Impression in Spain.

MADRID, July 22.—El Imparcial says: "All Spaniards are delighted to see the hour of expiation fast approaching for the Cuban rebels. The Americans must inevitably awaken to their utter worthlessness."

Other newspapers comment upon the dispatches in the same sense, while the courtesy the Americans show the Spanish prisoners has made a profound impression in Spain and is materially assisting the prospects of peace.

LONDON, July 22.—A dispatch to The Standard from Corunna gives a lively account of the stampede into the country owing to the fears of the "approaching American squadron." The correspondent says there is a daily stream of bullock carts with furniture and the town is nearly deserted by the better class of inhabitants.

ALLEGED BLOCKADE RUNNER.

The Cruiser Mayflower Took Her—Cubans Brought to Key West.

KEY WEST, July 22.—The cruiser Mayflower arrived yesterday morning from blockade duty. On Tuesday evening, while off Cienfuegos, the Mayflower saw the British steamship Newfoundland heading for the bay. She gave chase and sent two solid shots at her. The ship hove to and the Mayflower sent a prize crew to her and she is now on the way to Charleston.

The Mayflower picked up five Cubans last week, who had escaped from Havana on a fishing boat. She brought the men here. The Cubans say they fled from Havana because of the privation there. Each day the food grows scarcer and the conditions worse. They had for days been unable to get anything to eat. The Spaniards are divided on the question of peace or war.

HALIFAX, July 22.—It was stated on good authority that the steamship Newfoundland was loaded in the interests of the Spanish government. She was chartered by a Montreal firm and an agent of the house came here and cleared the ship. Her cargo is valued at \$30,360.

CRIMINAL CASES.

Will Likely Be Disposed of in Court Next Week.

A criminal assignment will probably be arranged for next week in court.

The Clarkson fur robbers will be given trial before the close of the term. John Mack, arrested a few days ago in Pittsburgh, indicted for the rape of two Wells-ville misses, and Edward Richards, charged with burglary, will also be tried before the close of the term. Sheriff Gill is close on the track of other parties who are badly wanted in the county, and the criminal slate will be wiped clean before the term closes.

Sentenced to Be Electrocuted.

BOWLING GREEN, O., July 22.—Olas Nelson, colored, was yesterday morning convicted of murdering James Zimmerman and sentenced to be electrocuted in the Ohio penitentiary on the morning of Nov. 4. Nelson narrowly escaped lynching at the time of the murder. He killed Zimmerman for money to get his sweetheart out of jail.

Cyclone in New Hampshire.

EXETER, N. H., July 22.—A cyclone struck the town of Epping yesterday afternoon, doing considerable damage to property and interrupting telegraphic and telephonic communication.

SAW SERVICE IN CUBA

Private John Rose Was at Santiago.

DISCHARGED AND SENT BACK

But He Will Enlist Again as Soon as He Has Finished His Vacation—He Is by No Means in Love With Cuba, and Does Not Like the People.

John Rose, formerly a private of Light Battery F, Second regiment artillery, attached to Light Battery L, Fourth artillery, U. S. A., is in the city visiting his brother and friends.

Rose was formerly employed at the Thomas pottery, but left the city in 1895, and on July 2, 1895, in Pittsburgh, he enlisted in Light Battery F, Fourth artillery. He was immediately sent to Fort Riley, Kansas, where he remained for a year and a half, and was then stationed at Fort Adams, Rhode Island. While there his regiment was sent to New York where they participated in the parade at the dedication of the Grant monument. The regiment returned to Fort Adams, where they remained until the present war broke out.

They were then sent to Chickamauga and from there to Port Tampa, Fla., where they remained a short time, and on June 10 set sail for Cuba on board the transport Berkshire No. 9, and camped 10 miles south of Santiago.

Rose received orders to report back to Key West on account of having less than 30 days to serve. He spent a few days at Key West, and went from there to Port Tampa, Fla., where he received his discharge July 1.

The discharge is signed by "W. F. Randolph, brigadier general, commanding light artillery brigade," and "L. W. Vaughn, captain Fourth artillery." It states that the character of Rose is excellent, and his service was honest and faithful. After receiving his discharge Rose came north as far as Matamoras, where he left his uniform and visited friends.

Rose did not see any engagements but said his regiment was fired upon while they were making a landing in Cuba, but the United States fleet kept the Spaniards from doing them any damage. He says he does not like Cuba as it is too hot, and the portion of it he saw is very mountainous. He does not like the method of fighting used by the Spaniards and says they are regular bushwhackers fighting from under large palmetto leaves. He likes the service very well, and after taking a much needed rest expects to re-enlist.

TO THE WORKS

Will Go Paddy O'Rourke If His Fine Is Not Paid.

Paddy O'Rourke, who was arrested Wednesday night by Officer White and brought to jail in the patrol, was given a hearing yesterday afternoon before Mayor Bough on a charge of disorderly conduct. O'Rourke when brought in the mayor's office was to be pitied. The charge was read to him and he did not have much to say. But information received before the hearing brought out an interesting story. After the case had been brought to light the mayor decided he was a bad man and fined him \$5 and costs and committed him to the workhouse until it is paid. If no one comes to his rescue by this evening he will be taken to Canton tomorrow morning.

This morning an elderly woman called on the mayor and asked that her son be looked after by an officer. "My boy," she said, "goes off in the summer and returns home in the winter. We never hear from him, and nobody knows where he goes. He never has any money, and is a dead head; yes, a dead head." If he doesn't do right in the future he will be sent over the road until he is able to behave himself.

Not So Many Cars.

Business at the freight depot yesterday was slower than Wednesday and not so many cars were sent out from the outbound platform. Receipts continue to be good, but shipments are slower.

No Change at Kittanning.

The situation at the Kittanning pottery remains unchanged and will probably do so for some time, as neither the men or Mr. Wick manifest any sign of giving in.

The ship hove to and the Mayflower sent a prize crew to her and she is now on the way to Charleston.

The Mayflower picked up five Cubans last week, who had escaped from Havana on a fishing boat. She brought the men here. The Cubans say they fled from Havana because of the privation there. Each day the food grows scarcer and the conditions worse. They had for days been unable to get anything to eat. The Spaniards are divided on the question of peace or war.

HALIFAX, July 22.—It was stated on good authority that the steamship Newfoundland was loaded in the interests of the Spanish government. She was chartered by a Montreal firm and an agent of the house came here and cleared the ship. Her cargo is valued at \$30,360.

CRIMINAL CASES.

Will Likely Be Disposed of in Court Next Week.

A criminal assignment will probably be arranged for next week in court.

The Clarkson fur robbers will be given trial before the close of the term. John Mack, arrested a few days ago in Pittsburgh, indicted for the ruin of two Wells-ville misses, and Edward Richards, charged with burglary, will also be tried before the close of the term. Sheriff Gill is close on the track of other parties who are badly wanted in the county, and the criminal slate will be wiped clean before the term closes.

Sentenced to Be Electrocuted.

BOWLING GREEN, O., July 22.—Chas. Nelson, colored, was yesterday morning convicted of murdering James Zimmerman and sentenced to be electrocuted in the Ohio penitentiary on the morning of Nov. 4. Nelson narrowly escaped lynching at the time of the murder. He killed Zimmerman for money to get his sweetheart out of jail.

Cyclone in New Hampshire.

EXETER, N. H., July 22.—A cyclone struck the town of Epping yesterday afternoon, doing considerable damage to property and interrupting telegraphic and telephone communication.

SAW SERVICE IN CUBA

Private John Rose Was at Santiago.

DISCHARGED AND SENT BACK

But He Will Enlist Again as Soon as He Has Finished His Vacation—He Is by No Means in Love With Cuba, and Does Not Like the People.

John Rose, formerly a private of Light Battery F, Second regiment artillery, attached to Light Battery L, Fourth artillery, U. S. A., is in the city visiting his brother and friends.

Rose was formerly employed at the Thomas pottery, but left the city in 1895, and on July 2, 1895, in Pittsburgh, he enlisted in Light Battery F, Fourth artillery. He was immediately sent to Fort Riley, Kansas, where he remained for a year and a half, and was then stationed at Fort Adams, Rhode Island. While there his regiment was sent to New York where they participated in the parade at the dedication of the Grant monument. The regiment returned to Fort Adams, where they remained until the present war broke out.

They were then sent to Chickamauga and from there to Port Tampa, Fla., where they remained a short time, and on June 10 set sail for Cuba on board the transport Berkshire No. 9, and camped 10 miles south of Santiago.

Rose received orders to report back to Key West on account of having less than 30 days to serve. He spent a few days at Key West, and went from there to Port Tampa, Fla., where he received his discharge July 1.

The discharge is signed by "W. F. Randolph, brigadier general, commanding light artillery brigade," and "L. W. Vaughn, captain Fourth artillery." It states that the character of Rose is excellent, and his service was honest and faithful. After receiving his discharge Rose came north as far as Matamoras, where he left his uniform and visited friends.

Rose did not see any engagements but said his regiment was fired upon while they were making a landing in Cuba, but the United States fleet kept the Spaniards from doing them any damage. He says he does not like Cuba as it is too hot, and the portion of it he saw is very mountainous. He does not like the method of fighting used by the Spaniards and says they are regular bushwhackers fighting from under large palmetto leaves. He likes the service very well, and after taking a much needed rest expects to re-enlist.

TO THE WORKS

Will Go Paddy O'Rourke If His Fine Is Not Paid.

Paddy O'Rourke, who was arrested Wednesday night by Officer White and brought to jail in the patrol, was given a hearing yesterday afternoon before Mayor Bough on a charge of disorderly conduct. O'Rourke when brought in the mayor's office was to be pitied. The charge was read to him and he did not have much to say. But information received before the hearing brought out an interesting story. After the case had been brought to light the mayor decided he was a bad man and fined him \$5 and costs and committed him to the workhouse until it is paid. If no one comes to his rescue by this evening he will be taken to Canton tomorrow morning.

This morning an elderly woman called on the mayor and asked that her son be looked after by an officer. "My boy," she said, "goes off in the summer and returns home in the winter. We never hear from him, and nobody knows where he goes. He never has any money, and is a dead head; yes, a dead head." If he doesn't do right in the future he will be sent over the road until he is able to behave himself.

Not So Many Cars.

Business at the freight depot yesterday was slower than Wednesday and not so many cars were sent out from the outbound platform. Receipts continue to be good, but shipments are slower.

No Change at Kittanning.

The situation at the Kittanning pottery remains unchanged and will probably do so for some time, as neither the men or Mr. Wick manifest any sign of giving in.

WATSON DELAYED.

Start to Spain Kept Back by Porto Rico Expeditions—Raid Not Abandoned.

WASHINGTON, July 22.—Secretary Long said last night that the preparations for dispatching the Watson squadron to European waters were going on uninterruptedly, but that the departure necessarily would await the movement of the warships at Porto Rico, the Massachusetts and other ships expected to be sent with Watson being required for conveying the troops to Porto Rico. This disposed of a report circulated during the day that the expedition had been abandoned. It was felt that the report was the more mischievous at this time as it indicated a purpose to yield to the implied threats from European sources that a European coalition would result if the American warships attacked the coast of Spain. Neither the state nor navy departments look for any embarrassment from European quarters outside of Spain, as a result of the naval movement against the peninsula. During yesterday orders were sent to Norfolk to hurry forward work on the colliers which are to accompany the Watson expedition.

Had the army troopships been able to go to Porto Rico without a naval convoy, the Watson squadron could have got away within the next few days, as the war board had wished to close all preliminaries by tomorrow.

Secretary Long expressly says, however, that the delay of the Watson squadron is incident to conveying of the troops to Porto Rico and does not mean that the start will be postponed until the Porto Rico operations are concluded.

The report from Barcelona that the people were so fearful of the approach of the Watson squadron that they were urging France to establish a protectorate over all the Catalonia district, including Barcelona, was dismissed by officials and by members of the diplomatic corps best informed on the affairs of France as fantastic speculation, quite unwarranted by any actual movement now on foot. It is said to be thoroughly well established that France is not lending a helping hand to Spain in any of her afflictions.

CAUSED A COMMOTION

Reverend Vibbert Was Interrupted While Talking.

A SHARP ANSWER GIVEN

Then There Were No More Remarks. Meeting at the First Presbyterian—Lawyers Will Take a Rest of Three Weeks. All the News of Wellsville.

While Reverend Vibbert was speaking in the square last night a young man identified with the liquor interests called out:

"How do you make your living?"

"That's none of your business sir," promptly replied the speaker and the fresh young man subsided. The incident caused a commotion for a time, but it soon became quiet again and the meeting went on as before.

The church meeting was held at the First Presbyterian, the attendance not being large. Reverend Lowry made a short address, and Reverend Vibbert took up his subject. He showed that while the consumption of intoxicants had increased one-half since 1876 it was not now as general.

The meeting will be held tonight at the Christian church.

Three Weeks of Rest.

Every law office in town will be closed next Monday morning, and for three weeks the attorneys will enjoy their vacations. The other attorneys of the association will only take two weeks, but the Wellsville contingent agreed to take three.

BEATEN AGAIN.

Spring Grove Tombstones Lost Another Game.

The ball game at the campground, last evening, between the Tombstones and Coffinlids, was won easily by the latter team by a score of 10 to 4. The batteries were Costelow and Weaver, Simms and Reed.

The Tombstones will this evening play a team from Wellsville.

The engine at the upper well was placed in position yesterday, and was tried today for the first time.

The street car station at the foot of the path is in an extremely dirty condition, and residents of the ground are complaining because the street railway company do not have it scrubbed and give their patrons a respectable place to wait on cars.

J. W. Albright and family yesterday moved to the ground.

Ted Brookes is suffering with a very sore arm which was struck by a ball while the game was in progress last evening.

NOT ENOUGH WATER

For Snag Boats to Reach the Upper Ohio.

As usual, the government snag and dredgeboats are getting ready to go on their annual tour when there is not enough water in some parts of the Ohio to float a cat fish. Rivermen have always contended that the dredgeboats should start on their annual cruise early in the spring. There is seldom enough water for them to come to the upper Ohio in summer and there is always work for them to do on this end of the river.

On the River.

The rise in the river has come and gone, and when the stream will reach another navigable height no one is able to tell. The highest mark registered was 4.8 feet and early last evening it began to recede. Today the marks registered three feet and falling. Rain is predicted at headwaters, but as the weather is clear no fall is anticipated.

The Twilight and Clipper returned to Pittsburg yesterday afternoon. They got a few flats below and made the trip without any trouble.

The Annual Cleaning.

The water works force this morning commenced the annual cleaning of the lower reservoir. The work will not be completed before Sunday evening.

The fire plugs are being opened today and cleaned, and as a consequence the water in the mains is very muddy.

BUNTING BRINGS SUIT

The City Is In the Legal Whirl Again.

FIVE THOUSAND FOR A FALL

An Echo of the Accident Brought About by the Giving Way of the Pavement at the Hotel Grand Last April—The Damaged One Says He Cannot Work as Before.

LISBON, July 22.—[Special]—Edward Bunting, a resident of Wellsville, has brought suit against the city of East Liverpool, claiming damages in the sum of \$5,000 for injuries received in an accident.

The petition was filed by Mary Dennis as his next friend, and says that on April 17, Bunting was walking in Washington street. When he reached a point opposite the Grand hotel two flagstones, a part of the sidewalk, gave way, and he fell to the bottom of the coal vault, a distance of seven feet. He sustained severe injuries, chief among them being the spraining of his back, legs, hips and arms, while two ribs were dislocated. The injuries prevented him from working at his usual occupation for six weeks, and his ability to labor was permanently impaired.

He claims the city is responsible because the flagstones were not of sufficient thickness nor were they properly supported.

SUED THE COUNTY

Because Elk Run Roads Are In Bad Condition.

LISBON, July 22.—[Special]—Joseph Watson, of Lisbon, has brought suit against the county commissioners to recover \$100 damages to his carriage and team, caused by the negligence of the commissioners in failing to keep in repair a road in Elkrun township which had been rendered almost impassible and very dangerous by freshet, landslide or other casualty.

On the night of June 25 Mr. Watson's carriage and team, while being driven along said road by reason of said negligence, want of repair and inattention of the county commissioners, the team and carriage were thrown over a declivity in the washout, breaking the carriage and injuring the team.

A marriage license was granted to Frank Sherbine and Ella M. Young.

Philip Thomas, of Lisbon, was sent to the Canton workhouse some time ago for abusing his wife. The wife soon after filed a petition for divorce. After serving his time Philip returned home. All past difficulties were forgotten, everything amicably settled and the divorce proceedings dropped.

EAST LIVERPOOL, O., FRIDAY, JULY 22

All Union papers of East Liverpool are
known to the various craft and unions of
the city by the printing of the above
Union Label at the head of their columns.

"REMEMBER THE MAINE."

It really seems as though the state
Republican committee know a thing or
two about politics. They are preparing
for a big victory.

The Tenth Pennsylvania infantry,
of which regiment Captain Palmer is a
member, has, according to a dispatch
from Hong Kong, arrived without acci-
dent at Manila.

HISTORY WILL DECIDE.

Certain of the correspondents sta-
tioned at Santiago are making much of
what they please to style inefficiency on
the part of a number of officers of the
army. Whether there is ground for
this severe criticism remains to be seen.
The country has heard but one side of
the story. There certainly is another.
Perhaps it will show a different condi-
tion, but there may be such a wide dif-
ference that the people cannot decide.
Then we must wait for the verdict of
history. That will clear the atmosphere
of doubt, provided historians consider
the matter of sufficient importance to
give it notice.

ENGLISH SENTIMENT.

The English press cannot say too
much for their American cousins, and
in almost every issue the army and
navy, from President McKinley to the
last enlisted man, is praised for the
splendid showing already made. Such
news is cheering news. Coming as it
does from a nation whose friendship
for the United States has never been
marked, the influence is not lost on this
side. England may have an axe to
grind, and her statesmen in desiring this
country as an ally show that they
recognize the power of the Republic.
What will come of this friendship it is
yet too early to predict, but it cannot be
doubted that the influence of our friends
across the water has kept Germany
from interfering and plainly told France
the position she must occupy. We have
been the first to derive benefit from the
new condition.

THE STRONG HAND.

A few weeks ago, when supplies for
the army were rotting on the side-
tracks at Tampa, and so much con-
fusion reigned that no man knew where
to turn, President McKinley ordered
that certain things be done, and as the
world knows his orders were carried
out to the letter and confusion ended.

The army and navy saw another ex-
hibition of his power this week. Gen-
eral Miles had been ordered to move on
Porto Rico, and with the energy he has
recently displayed he prepared for the
voyage. Admiral Sampson, however,
was not so prompt, or perhaps he failed
to understand the order. At any rate,
General Miles did not leave Santiago.
Then came President McKinley, and
doubtless his words caused no little
commotion at Santiago. His words
were few, the report says, but they were
to the point. They could not be mis-
understood. Therefore it is but reason-
able to suppose that Admiral Sampson,
or whoever was responsible, has already
remedied the defect and taken steps that
will prevent further delay. It is but an-
other instance that President McKinley
possesses that firmness of character
which is just now needed in public af-
fairs.

WHERE IS THE EIGHTH?

Probably on Its Way to Porto Rico.

REPORTS ARE NOT THE SAME

Word From Washington Says They Are With General Miles, and a Pittsburg Statement Says They Are Anxious to Go With Him—Mrs. McKinley's Message.

The friends of Captain Hill and his company are wondering whether they are on board the Yale steaming toward Porto Rico or whether they are still in the hills above Santiago.

On the strength of the report published in the New York Journal the News Review stated that the Eighth with the other two regiment of the Second brigade were going to Porto Rico as a part of the attacking army. Special dispatches from Washington made the same statement, and today they are repeated, all saying the Eighth is bound for Porto Rico.

J. A. Mackaye, the correspondent of the Pittsburg Dispatch, who is with the Eighth Ohio wherever it may be, has sent the following to his paper under date of Siboney, July 21.

"The officers and men of the Eighth Ohio regiment (McKinley's Own) are much worried because they are unable to communicate with their friends at home. No mail is allowed to leave here, because of the fear that it might be the means of carrying fever germs. The health of the regiment is good, there not being a single case of serious illness. The Eighth arrived just too late for the land fighting here, and is now using every effort to be included in the expedition to Porto Rico."

If the above dispatch is a cable from Siboney there is something wrong with the statements made at Washington, for the Eighth would not yesterday be making efforts to be taken to Porto Rico. Instead the command would be on ship board patiently waiting for orders to move. As General Miles started for Porto Rico yesterday the Eighth is with him and the remainder of the brigade, or it is not; and the "dispatch" quoted above came on the same mail which brought letters from Company E to Liverpool yesterday, or some one has made a mistake.

The Canton Repository yesterday received a dispatch from Adjutant Kuhns, of the Eighth, which contained the words "all well" and that is all. Mrs. McKinley also wired Mrs. M. C. Barber, of Canton, as follows:

"From advices received health of Eighth Ohio is good. No fever."

From all these reports it can be seen that while everybody seems to think the Eighth is physically all right no one knows its exact location.

A special from Akron says: "A cablegram received in Akron today from a member of the Eighth regiment contained the information that the regiment would certainly be included in the Porto Rico expedition. The Eighth was originally designated as one of the regiments to go on this expedition, but when additional troops were needed at Santiago, the organization, being one of the best equipped in the service, was sent there, arriving too late, however, to participate in the fighting. The cablegram also contained the cheering information that there was no yellow fever in the regiment."

It was the same trouble that caused the action before Justice Hill.

NO ATTEMPT TO REBUILD

At the Meeting of the Stockholders Yesterday Afternoon the Conclusion Was Reached Without Discussion—In Good Condition.

The stockholders of the Specialty Glass company decided yesterday afternoon to wind up the business of the concern and adjust its affairs as soon as possible.

The action means that East Liverpool will not have a glass plant operated by the Specialty, and the numerous projects on foot with the company as the principal factor will come to nothing. It does not, however, interfere with the plan to operate a glass factory on the co-operative plan, for while officers of the company are interested in it they simply act as individuals. The affairs of the Specialty are in as good condition as the stockholders expected, and the settlement will, it is announced, be satisfactory.

Do not forget the lawn fete tonight at the residence of Geo. C. Murphy, Third street, given by the Christian Endeavor of First Presbyterian church for the benefit of the Y. M. C. A. work among the soldier boys. Music and refreshments. Come.

Wheelmen Will Race.

Preparations are being made for bicycle races to be held here Wednesday afternoon at the park. The races will consist of one-half mile race, boys under 16; half mile and mile open, two and five mile handicap races and a team race.

Entries have been received from Salem and Allegheny people, and teams will come from East Palestine, Salem, Salineville and Allegheny.

Come to the lawn fete tonight and take a throw at Weyler.

Referred to a Justice.

Mayor Bough this afternoon received a complaint from a resident of Calcutta road about a neighbor who has been for several months throwing waste water and garbage near his house.

As the matter is of a civil character the individual was referred to a justice of the peace.

TO LOOK OVER POTTERIES

Then Something Concerning the Trust
Will Be Known—The Promoter Has
Completed His Work and It Is Now In
Other Hands.

All matters pertaining to the proposed pottery trust have taken another turn, and the local manufacturers who hope the deal will be consummated are anxiously awaiting the coming of a very important personage. His name is not given out, but he is clothed with all kinds of power by the people who expect to put their money into the project.

The promoter who has visited the city many times since the early spring has notified parties interested that his work is done. He has gone as far as he expected, and now the affair goes into the hands of those people who are willing to put their money into the enterprise. One of their number has been selected to come here and look over the ground, and report to his associates. He is authorized to do certain things which will definitely settle the question of a trust. He will be in Liverpool, the promoter says, before the first of August. He is therefore expected to arrive next week.

Beyond the above information the matter is much as it has been for some time. It is said that four concerns positively refuse to enter the combination, and will make the fight alone. They took that position and are steadily maintaining it. On the other hand some manufacturers are anxious to enter the trust, and others will do so if the combination is made sufficiently powerful to withstand assault from without.

WANTS TO GO TO WAR.

But Private George Allen Does Not Expect It.

Private George Allen, of Company E, Eighteenth Pennsylvania, is in the city visiting friends.

Private Allen said this morning that his command was doing garrison duty at Camp Pittsburg, Delaware. He is anxious to go to war, but does not expect to see much of it, as the regiment seems fixed and established.

Private Allen lived at Parkersburg when the war broke out and enlisted in Pittsburg. He is accompanied by his wife.

TEAMSTERS COMPLAIN

Because of Approaches to Jethro Bridge.

There is a great deal of complaint in regard to the way the approaches to the Jethro bridge have been filled, and they are not at all satisfactory to the teamsters who drive over the bridge.

The approaches are all right as far as they go but the trouble is there is not enough of them and a team is compelled to go up a very steep embankment to reach the bridge. The work will probably be completed under the direction of Engineer George.

TWO POOR ONES

Will Be Sent to Their Homes by the Trustees.

The township trustees will tomorrow send a colored man to Pittsburg. The man is ill in a boarding house, and has no one to care for him. He will be sent to relatives.

Mrs. Martha Jacobs, of East End, will be sent to her home below Ravenswood, W. Va. She is in destitute circumstances, and will go to the home of her parents.

Mr. Reeder is well known here, having canvassed this city while a candidate for commissioner several years ago.

Private George Allen, of Company E, Eighteenth Pennsylvania, is in the city visiting friends.

Private Allen said this morning that his command was doing garrison duty at Camp Pittsburg, Delaware. He is anxious to go to war, but does not expect to see much of it, as the regiment seems fixed and established.

Private Allen lived at Parkersburg when the war broke out and enlisted in Pittsburg. He is accompanied by his wife.

TEAMSTERS COMPLAIN

Because of Approaches to Jethro Bridge.

There is a great deal of complaint in regard to the way the approaches to the Jethro bridge have been filled, and they are not at all satisfactory to the teamsters who drive over the bridge.

The approaches are all right as far as they go but the trouble is there is not enough of them and a team is compelled to go up a very steep embankment to reach the bridge. The work will probably be completed under the direction of Engineer George.

TWO POOR ONES

Will Be Sent to Their Homes by the Trustees.

The township trustees will tomorrow send a colored man to Pittsburg. The man is ill in a boarding house, and has no one to care for him. He will be sent to relatives.

Mrs. Martha Jacobs, of East End, will be sent to her home below Ravenswood, W. Va. She is in destitute circumstances, and will go to the home of her parents.

HE KNOWS THE CUBANS

Thinks They Are a Lazy, Worthless Lot.

LIKES PORTO RICO VERY WELL

He Is Glad American Troops Are Going to That Place, Because There They Will Find a Most Agreeable Change—A Frenchman's Opinions.

"A Spaniard is a gentleman always, but a Cuban in my estimation is worse than a Mexican greaser." These were the words of Harry Alfredo, a native of France, to a NEWS REVIEW reporter yesterday afternoon.

Mr. Alfredo in speaking of the war between Spain and America said: "In 1890 I went to Cuba and the islands of the West Indies, remaining there about three years. When I reached American soil I was a sick man and even to this day I am still ill. It is not noticeable, but I am far from being well. I know something about Santiago de Cuba and the city of Santiago where so much loss confronted the Spaniards a few weeks ago. The town is situated on a long slope. Its streets are very narrow, not much wider than the alleys of Liverpool. The houses are not ventilated like those of this country, and have no doors. The heat as a rule is 90 degrees and during the day people do very little work. They sleep in the morning, get up at 11, eat a luncheon and take a siesta. In the evening all shops are open, and much work is done. The women sit on tops of houses and plazas in the evening and in this manner enjoy life. It is nothing to see girls and women smoke in Santiago. The streets are not sewered, and the place is generally very unhealthy. The dead of the town are taken to the bay and when the tide comes in the sharks get the bodies. That is the end of the poor Cuban or Spaniard of Santiago.

"I am glad to learn the United States is going to take Porto Rico. This island is the best and most beautiful in the entire West Indies. Much can be said of its scenery and people. At the entrance of San Juan is the Morro which I interpret, high land. There are many Morros in the Spanish possessions. The Morro is the gateway to the town. It was built many years ago, and is no hindrance to the American forces whatever. Its walls are almost greasy, and are crumbling. The harbor is a beautiful sight, and is frequented by many during the day because of its coolness. There is a street leading from the harbor to the hills far away which represents Broadway of this city. This is the main street of the place and all the houses on it are painted white. The walks are shaded with cocoanut, banana and palmetto trees. There is one ice plant on the island owned and run by Americans. Ice sells for one cent a pound. The output is large. Many convents are on the island and but one Protestant congregation is known. Lottery tickets are bought like cigars.

"When the United States troops land at San Juan they will be well received by sympathizers. All the water being used comes from the center of the island and is well protected. Wine is much cheaper than water, but this is a very bad beverage to take.

"Yes, I know the Cubans; they are a contemptible set, lazy and will do anything to keep from work."

TWO CENTS

AGUINALDO UGLY.

Attack on Manila Delayed For This Reason.

MORE TROOPS AWAITED.

Consul Wildman Sent For to Quiet Aguinaldo.

TENTH PENNSYLVANIA ARRIVED.

Word From Dewey That the Second Expedition Reached Him July 16 and 17. The Stars and Stripes Were Raised Over Another Island, Before the American Expedition Reached Manila Bay. Aguinaldo Named a Cabinet.

WASHINGTON, July 22.—It was reported last night that Admiral Dewey has cabled that owing to Aguinaldo's ugly attitude he must wait for more reinforcements before attacking Manila.

LONDON, July 22.—A Hongkong special received here says United States Consul Wildman has been sent for to try and pacify Aguinaldo.

On the way from Honolulu the Stars and Stripes were unfurled over Wake island, which is a Spanish possession.

EMILIO AGUINALDO.

and lies midway between the Hawaiian and the Philippine islands.

WASHINGTON, July 22.—That Admiral Dewey has the situation in the Philippines well in hand is exhibited by his telegrams, one of which was received yesterday, which without boasting simply reports like the others that have gone before that affairs are quiet and satisfactory. The state department has come to have fully as great a sense of appreciation of Dewey's diplomatic abilities as the country has for his naval skill and courage and the best evidence of this is that it has not found it necessary up to this point to interfere in any way either to protect or to amend his works. The navy department has now discovered that the big double-turreted monitor Monterey will not arrive at Cavite until Aug. 5; that being the advice received at the department from the captain of the vessel when she touched at Honolulu.

The admiral's announcement of the arrival of the second detachment of United States troops at Cavite has given great comfort to the war department, which was not altogether at ease concerning the first small expedition lying between Spaniards and the insurgents and without being able to depend very largely upon either. With these added troops it will now be possible to demand the surrender of Manila, but it is gathered here that our purpose is to defer such a movement until all the United States troops now afloat have arrived in Manila bay, unless the attitude of the insurgents' forces prompt action on the part of the American commanders, military and naval.

MANILA, July 18, via Hongkong, July 22.—Unless the Spaniards surrender in the meantime, Rear Admiral Dewey will bombard the fortifications of Manila by the end of this week, provided the troops are ready to take possession immediately.

The first regiment is already in the field at Paranaque, two miles from Manila.

The Spaniards are reported to have been buoyed up by the hope that the Cadiz fleet, due here on the 16th, would arrive soon, but the news of the destruction of Admiral Cervera's squadron, brought yesterday by the Japanese cruiser Nahauiwa, may lead them to surrender. The insurgents are constantly harassing the Spaniards on both sides of the city, but they are checked by the big guns of the Malate and Santa Misa forts.

The China arrived on the afternoon of the 16th and the Zealandia, Colon and Senator on the morning of the 17th.

Four deaths occurred during the voyage—Lieutenant Lazallo, Private Madrox of the Eighteenth infantry, Surgeon Geddis of the First Nebraska and Weisband of the First Colorado. The others all arrived well. On the Zealandia is the Tenth Pennsylvania regiment.

The German steamer Wuetan at this port from Cavite reports that no advance had been made by the American forces. They were awaiting the coming of General Merritt, who was expected to reach the place within ten days. The insurgents still invested the town.

The news of the destruction of Admiral Cervera's fleet at Santiago de Cuba was received at Manila on July 17 and created consternation among the Spaniards.

A statement prepared at the war department gave the organizations of troops forming the second expedition to the Philippines, which Admiral Dewey reported as having arrived at Manila, as follows:

Commander general, F. V. Greene. Tenth Pennsylvania, First Colorado, First Nebraska, four companies of the Eighteenth, and eight companies of the Twenty-third United States infantry. Total number of men, 8,586. The expedition sailed from San Francisco, June 15.

HONGKONG, July 22.—Letters received here from Cavite, dated July 18, say that the American transports have hoisted the American flag on an island supposed to be Watt's island.

General Aguinaldo has organized the Philippine cabinet at Bacoor with the following personnel:

President of the council—General Aguinaldo.

Secretary of war—Baldimiro Aguinaldo, nephew of General Aguinaldo.

Secretary of the interior—Leandre Ibarra.

Secretary of state—Mariano Trias.

It is considered certain that the Philippine islands will never be amalgamated and that they will never return to Spanish rule. Therefore, the only alternative, in the opinion of the best informed people here, is foreign rule, American or British.

WILL KEEP PORTO RICO.

This Practically Official Statement Made in Washington.

WASHINGTON, July 22.—This practically official statement was made to the Associated Press yesterday.

"Porto Rico will be kept by the United States. That is settled and has been the plan from the first. Once taken it will never be released. It will pass forever into the hands of the United States and there never has been any other thought. Its possession will go toward making up the heavy expense of war to the United States. Our flag, once run up there, will float over the island permanently."

The same authority says the future of the Philippines is a matter of development. It was intimated, however, though not definitely asserted, that the Ladrone islands might follow the fate of Porto Rico, and become our permanent possession, being valuable as a coal- and supply station.

SOLDIERS' AND SAILORS' FAMILIES.

Trying to Find a Way to Give Needy Ones Some of the Pay.

WASHINGTON, July 22.—Major John Byrne of New York, president of the Soldiers' and Sailors' Families Protective association, has been in Washington in the interest of a revival of the law of 1861, under which an allotment of the pay of soldiers and sailors was made to the families of volunteers through the pay department of the army. He had a conference with the president and others.

Major Byrne departed for New York much encouraged. The president referred the matter to the secretary of war, who had it made special. The attorney general's department is trying to find a way to re-establish a rule which proved so effective in the Civil war.

CLOSING LIQUOR CANTEENS.

Petitions of Wives and Mothers Effective at Chickamauga.

CHICKAMAUGA PARK, Ga., July 22.—Persistent petitioning and letter writing by wives and mothers of the soldiers has had the effect of closing up three of the regimental canteens at Camp Thomas. It is said that several others are scheduled to go in the near future. Colonel Hartsuff, the chief surgeon at the camp, is not a friend of the canteen and is doing all in his power to discourage the use by the men of alcoholic beverages.

The women of the W. O. T. U. have made an appeal to General Brooke and have gained his sympathy, but he is powerless for the reason that they are provided for in the army regulations.

QUEEN, REGENT'S BIRTHDAY.

Private Mass Celebrated—Receptions and Banquets Suppressed.

MADRID, July 22.—The queen's birthday (she was born July 21, 1858) was yesterday, but "owing to the nation's circumstances," the usual official receptions and banquets were suppressed. The only ceremony was a private mass celebrated in the chapel of the royal palace. The royal family and the court attended this service.

The queen regent has ordered that the customary funds be distributed in works of charity. There were many visitors at the palace yesterday.

Soldiers Left Gettysburg.

GETTYSBURG, Pa., July 22.—Company M, Fifth Pennsylvania infantry regiment, recruited in Gettysburg and this county, with an addition of about 30 from New York, left last evening for Chickamauga to fill up this regiment.

OTHER EXPEDITIONS UNDER WAY.

It Is Thought the General May Wait at Some Point Until These Reach Him or He May Reach Porto Rico and Land Without Them—The War Department Reported to Be Determined He Shall Not Lack For Troops or Equipment.

WASHINGTON, July 22.—General Miles, leading the military expedition against Porto Rico, started about 3 o'clock yesterday afternoon from Siboney, Cuba, for the point on the island of Porto Rico, where it is the intention that the troops shall land. It is expected that General Miles will wait at some appointed spot on the route for the expeditions from Tampa, Newport News and New York to fall into his column. These expeditions are already under way, some of them with two or three days' start of General Miles, so that the delay should not be very great. After all the difficulty about the naval convoy, and the first conclusion of the naval authorities that none was necessary, the strength of that now furnished is surprising.

There is a battleship of the first-class, the Massachusetts, an effective protected cruiser, the Cincinnati, a speedy and well-armed gunboat, the Annapolis, and three vessels of the auxiliary navy, which have already proved by their performance in Cuban waters that they are fully equal to the ordinary gunboat in offensive power. These are the Gloucester, which distinguished herself in the destruction of Cervera's squadron, the Wasp, which has attained an enviable notoriety as a disturber of Spanish blockhouses, and the Leyden, which for a time was the sole representative of United States power in Havana harbor.

Secretary Alger believes that General Miles, on the Yale, will arrive at his destination Sunday morning with 3,000 men under his immediate command. A day later will come 4,000 men on transports and the day following that 3,500 more. Whether the landing will be deferred until the arrival of this entire force or whether General Miles will take the initiative and hoist the flag himself on Porto Rico soil is left to the discretion of that officer. It is the department's determination that he shall not lack for troops or equipment, and this first expedition may be followed by several others as fast as the troops can be gotten ready until word comes from the general that he needs no more.

General Schwan's brigade, comprising the Fifth, the Eleventh and Nineteenth United States infantry, a splendid body of trained soldiers, sailed from Tampa yesterday to join General Miles, and if the Porto Rican expedition is not an immediate success it will not be for lack of disposition in the war department to supply every requisite.

CHICKAMAUGA, MILITARY PARK, Ga., July 22.—It looks as if at least two-thirds of the troops at Camp Thomas are to be ordered to the front as an expeditionary force to go to Porto Rico under General Brooke.

The movement is expected to begin today, when the Second brigade of the First division, First corps, commanded by Brigadier General Haines, is scheduled to leave for Newport News.

The regiments of the brigade are the Fourth Ohio, Third Illinois and Fourth Pennsylvania.

While General Brooke in person has nothing to give out for publication one of the most prominent and best posted officers of the First corps admitted yesterday that it was the purpose to move the entire corps, which numbers about 36,000 officers and men. The regiments of the First corps are: Fifth Illinois, Third Wisconsin, First Kentucky, Third Illinois, Fourth Pennsylvania, Fourth Ohio, Sixteenth Pennsylvania, Second Wisconsin, Third Kentucky, Thirty-first Michigan, One Hundred and Sixtieth Indiana, First Georgia, Sixth Ohio, One Hundred and Fifty-eighth Indiana, First West Virginia, Second Ohio, First Pennsylvania, Fourteenth Minnesota, Twelfth Minnesota, First South Carolina, Fifth Pennsylvania, Eighth Massachusetts, Twenty-first Kansas, Twelfth New York, Ninth Pennsylvania, Second Missouri and First New Hampshire.

REV. DR. CORE'S FUNERAL.

The Prominent Methodist Minister's Memory Honored.

WASHINGTON, Pa., July 22.—The funeral services of the late Rev. Jesse Franklin Core, D. D., presiding elder of the Washington M. E. district, were held in the First M. E. church. Rev. Thomas F. Woodring, D. D., pastor of the church, was in charge of the services, assisted by ministers of the Pittsburgh conference. The services occurred yesterday.

VACATION FOR SOLDIERS.

Fifth Corps Likely to Be Brought to the United States.

SANTIAGO DE CUBA, July 20, via Kingston, Jamaica, July 22.—General Shafter has opened a cable office here and is in communication with Washington regarding the disposition of the Fifth army corps, which consists of those troops which came with him from Tampa and the reinforcements from the four transports which have since been unloaded.

The condition of the men now, according to the physicians and commanding officers, is such that the entire corps should return north at once.

General Shafter has sent messages to this effect.

The doctors say the men should be sent into camp in the mountains of North Carolina or Western Maine for a month. Washington agrees to this and will do everything possible, the cable dispatches today say, to carry the army away from here, but there is a lack of transports.

General Shafter has cabled to Washington that it is imperatively necessary that he should have more immunes sent to him quickly, and the probability is that a corps will leave within the next ten days.

All our men are now encamped on the fighting line, where they have been for two weeks, except General Wheeler's men, who have been sent into the hills.

General Wheeler is still ill, but he resists the pleas of his friends to return to the United States.

HELPS PEACE PROSPECTS.

Kindness Shown to Prisoners Creating a Profound Impression in Spain.

MADRID, July 22.—El Imparcial says: "All Spaniards are delighted to see the hour of expiation fast approaching for the Cuban rebels. The Americans must inevitably awaken to their utter worthlessness."

Other newspapers comment upon the dispatches in the same sense, while the courtesy the Americans show the Spanish prisoners has made a profound impression in Spain and is materially assisting the prospects of peace.

LONDON, July 22.—A dispatch to The Standard from Corunna gives a lively account of the stampede into the country owing to the fears of the "approaching American squadron." The correspondent says there is a daily stream of bullock carts with furniture and the town is nearly deserted by the better class of inhabitants.

ALLEGED BLOCKADE RUNNER.

The Cruiser Mayflower Took Her—Cubans Brought to Key West.

KEY WEST, July 22.—The cruiser Mayflower arrived yesterday morning from blockade duty. On Tuesday evening, while off Cienfuegos, the Mayflower saw the British steamship Newfoundland heading for the bay. She gave chase and sent two solid shots at her. The ship dove to and the Mayflower sent a prize crew to her and she is now on the way to Charleston.

The Mayflower picked up five Cubans last week, who had escaped from Havana on a fishing boat. She brought the men here. The Cubans say they fled from Havana because of the privation there. Each day the food grows scarcer and the conditions worse. They had for days been unable to get anything to eat. The Spaniards are divided on the question of peace or war.

HALIFAX, July 22.—It was stated on good authority that the steamship Newfoundland was loaded in the interests of the Spanish government. She was chartered by a Montreal firm and an agent of the house came here and cleared the ship. Her cargo is valued at \$30,360.

CRIMINAL CASES.

Will Likely Be Disposed of in Court Next Week.

A criminal assignment will probably be arranged for next week in court.

The Clarkson fur robbers will be given trial before the close of the term. John Mack, arrested a few days ago in Pittsburgh, indicted for the ruin of two Wells-ville misses, and Edward Richards, charged with burglary, will also be tried before the close of the term. Sheriff Gill is close on the track of other parties who are badly wanted in the county, and the criminal slate will be wiped clean before the term closes.

Sentenced to Be Executed.

BOWLING GREEN, O., July 22.—Olas Nelson, colored, was yesterday morning convicted of murdering James Zimmerman and sentenced to be electrocuted in the Ohio penitentiary on the morning of Nov. 4. Nelson narrowly escaped lynching at the time of the murder. He killed Zimmerman for money to get his sweetheart out of jail.

Cyclone in New Hampshire.

EXETER, N. H., July 22.—A cyclone struck the town of Epping yesterday afternoon, doing considerable damage to property and interrupting telegraphic and telephone communication.

SAW SERVICE IN CUBA

Private John Rose Was at Santiago.

DISCHARGED AND SENT BACK

But He Will Enlist Again as Soon as He Has Finished His Vacation—He Is by No Means In Love With Cuba, and Does Not Like the People.

John Rose, formerly a private of Light Battery F, Second regiment artillery, attached to Light Battery L, Fourth artillery, U. S. A., is in the city visiting his brother and friends.

Rose was formerly employed at the Thomas pottery, but left the city in 1896, and on July 2, 1895, in Pittsburg, he enlisted in Light Battery F, Fourth artillery. He was immediately sent to Fort Riley, Kansas, where he remained for a year and a half, and was then stationed at Fort Adams, Rhode Island. While there his regiment was sent to New York where they participated in the parade at the dedication of the Grant monument. The regiment returned to Fort Adams, where they remained until the present war broke out.

They were then sent to Chickamauga and from there to Port Tampa, Fla., where they remained a short time, and on June 10 set sail for Cuba on board the transport Berkshire No. 9, and camped 10 miles south of Santiago.

Rose received orders to report back to Key West on account of having less than 30 days to serve. He spent a few days at Key West, and went from there to Port Tampa, Fla., where he received his discharge July 1.

The discharge is signed by "W. F. Randolph, brigadier general, commanding light artillery brigade," and "L. W. Vaughn, captain Fourth artillery." It states that the character of Rose is excellent, and his service was honest and faithful. After receiving his discharge Rose came north as far as Matamoras, where he left his uniform and visited friends.

Rose did not see any engagements but said his regiment was fired upon while they were making a landing in Cuba, but the United States fleet kept the Spaniards from doing them any damage. He says he does not like Cuba as it is too hot, and the portion of it he saw is very mountainous. He does not like the method of fighting used by the Spaniards and says they are regular bushwhackers fighting from under large palmetto leaves. He likes the service very well, and after taking a much needed rest expects to re-enlist.

TO THE WORKS

Will Go Paddy O'Rourke If His Fine Is Not Paid.

Paddy O'Rourke, who was arrested Wednesday night by Officer White and brought to jail in the patrol, was given a hearing yesterday afternoon before Mayor Bough on a charge of disorderly conduct. O'Rourke when brought in the mayor's office was to be pitied. The charge was read to him and he did not have much to say. But information received before the hearing brought out an interesting story. After the case had been brought to light the mayor decided he was a bad man and fined him \$5 and costs and committed him to the workhouse until it is paid. If no one comes to his rescue by this evening he will be taken to Canton tomorrow morning.

This morning an elderly woman called on the mayor and asked that her son be looked after by an officer. "My boy," she said, "goes off in the summer and returns home in the winter. We never hear from him, and nobody knows where he goes. He never has any money, and is a dead head; yes, a dead head." If he doesn't do right in the future he will be sent over the road until he is able to behave himself.

Not So Many Cars.

Business at the freight depot yesterday was slower than Wednesday and not so many cars were sent out from the outbound platform. Receipts continue to be good, but shipments are slower.

No Change at Kittanning.

The situation at the Kittanning pottery remains unchanged and will probably do so for some time, as neither the men or Mr. Wick manifest any sign of giving in.

WATSON DELAYED.

Start to Spain Kept Back by Porto Rico Expeditions—Raid Not Abandoned.

WASHINGTON, July 22.—Secretary Long said last night that the preparations for dispatching the Watson squadron to European waters were going on uninterruptedly, but that the departure necessarily would await the movement of the warships at Porto Rico, the Massachusetts and other ships expected to be sent with Watson being required for convoying the troops to Porto Rico. This disposed of a report circulated during the day that the expedition had been abandoned. It was felt that the report was the more mischievous at this time as it indicated a purpose to yield to the implied threats from European sources that a European coalition would result if the American warships attacked the coast of Spain. Neither the state nor navy departments look for any embarrassment from European quarters outside of Spain, as a result of the naval movement against the peninsula. During yesterday orders were sent to Norfolk to hurry forward work on the colliers which are to accompany the Watson expedition.

Had the army troops been able to go to Porto Rico without a naval convoy, the Watson squadron could have got away within the next few days, as the war board had wished to close all preliminaries by tomorrow.

Secretary Long expressly says, however, that the delay of the Watson squadron is incident to convoying of the troops to Porto Rico and does not mean that the start will be postponed until the Porto Rico operations are concluded.

The report from Barcelona that the people were so fearful of the approach of the Watson squadron that they were urging France to establish a protectorate over all the Catalonia district, including Barcelona, was dismissed by officials and by members of the diplomatic corps best informed on the affairs of France as fantastic speculation, quite unwarranted by any actual movement now on foot. It is said to be thoroughly well established that France is not lending a helping hand to Spain in any of her afflictions.

WELLSVILLE.

CAUSED A COMMOTION

Reverend Vibbert Was Interrupted While Talking.

A SHARP ANSWER GIVEN

Then There Were No More Remarks. Meeting at the First Presbyterian—Lawyers Will Take a Rest of Three Weeks. All the News of Wellsville.

While Reverend Vibbert was speaking in the square last night a young man identified with the liquor interests called out:

"How do you make your living?"
"That's none of your business sir" promptly replied the speaker and the fresh young man subsided. The incident caused a commotion for a time, but it soon became quiet again and the meeting went on as before.

The church meeting was held at the First Presbyterian, the attendance not being large. Reverend Lowry made a short address, and Reverend Vibbert took up his subject. He showed that while the consumption of intoxicants had increased one-half since 1876 it was not now as general.

The meeting will be held tonight at the Christian church.

Three Weeks of Rest.

Every law office in town will be closed next Monday morning, and for three weeks the attorneys will enjoy their vacations. The other attorneys of the association will only take two weeks, but the Wellsville contingent agreed to take three.

NOT ENOUGH WATER

For Snag Boats to Reach the Upper Ohio.

As usual, the government snag and dredgeboats are getting ready to go on their annual tour when there is not enough water in some parts of the Ohio to float a cat fish. Rivermen have always contended that the dredgeboats should start on their annual cruise early in the spring. There is seldom enough water for them to come to the upper Ohio in summer and there is always work for them to do on this end of the river.

BUNTING BRINGS SUIT

The City Is In the Legal Whirl Again.

FIVE THOUSAND FOR A FALL

An Echo of the Accident Brought About by the Giving Way of the Pavement at the Hotel Grand Last April—The Damaged One Says He Cannot Work as Before.

LISBON, July 22.—[Special]—Edward Bunting, a resident of Wellsville, has brought suit against the city of East Liverpool, claiming damages in the sum of \$5,000 for injuries received in an accident.

The petition was filed by Mary Dennis as his next friend, and says that on April 17, Bunting was walking in Washington street. When he reached a point opposite the Grand hotel two flagstones, a part of the sidewalk, gave way, and he fell to the bottom of the coal vault, a distance of seven feet. He sustained severe injuries, chief among them being the spraining of his back, legs, hips and arms, while two ribs were dislocated. The injuries prevented him from working at his usual occupation for six weeks, and his ability to labor was permanently impaired.

He claims the city is responsible because the flagstones were not of sufficient thickness nor were they properly supported.

SUED THE COUNTY

Because Elk Run Roads Are In Bad Condition.

LISBON, July 22.—[Special]—Joseph Watson, of Lisbon, has brought suit against the county commissioners to recover \$100 damages to his carriage and team, caused by the negligence of the commissioners in failing to keep in repair a road in Elkrun township which had been rendered almost impassible and very dangerous by freshet, landslide or other casualty.

On the night of June 25 Mr. Watson's carriage and team, while being driven along said road by reason of said negligence, want of repair and inattention of the county commissioners, the team and carriage were thrown over a declivity in the washout, breaking the carriage and injuring the team.

A marriage license was granted to Frank Sherbine and Ella M. Young.

Philip Thomas, of Lisbon, was sent to the Canton workhouse some time ago for abusing his wife. The wife soon after filed a petition for divorce. After serving his time Philip returned home. All past difficulties were forgotten, everything amicably settled and the divorce proceedings dropped.

"REMEMBER THE MAINE."

It really seems as though the state
 Republican committee know a thing or
 two about politics. They are preparing
 for a big victory.

THE Tenth Pennsylvania infantry,
 of which regiment Captain Palmer is a
 member, has, according to a dispatch
 from Hong Kong, arrived without acci-
 dent at Manila.

HISTORY WILL DECIDE.

Certain of the correspondents sta-
 tioned at Santiago are making much of
 what they please to style inefficiency on
 the part of a number of officers of the
 army. Whether there is ground for
 this severe criticism remains to be seen.
 The country has heard but one side of
 the story. There certainly is another.
 Perhaps it will show a different condi-
 tion, but there may be such a wide dif-
 ference that the people cannot decide.
 Then we must wait for the verdict of
 history. That will clear the atmosphere
 of doubt, provided historians consider
 the matter of sufficient importance to
 give it notice.

ENGLISH SENTIMENT.

The English press cannot say too
 much for their American cousins, and
 in almost every issue the army and
 navy, from President McKinley to the
 last enlisted man, is praised for the
 splendid showing already made. Such
 news is cheering news. Coming as it
 does from a nation whose friendship
 for the United States has never been
 marked, the influence is not lost on this
 side. England may have an axe to
 grind, and her statesmen in desiring this
 country as an ally show that they
 recognize the power of the Republic.
 What will come of this friendship it is
 yet too early to predict, but it cannot be
 doubted that the influence of our friends
 across the water has kept Germany
 from interfering and plainly told France
 the position she must occupy. We have
 been the first to derive benefit from the
 new condition.

THE STRONG HAND.

A few weeks ago, when supplies for
 the army were rotting on the side-
 tracks at Tampa, and so much con-
 fusion reigned that no man knew where
 to turn, President McKinley ordered
 that certain things be done, and as the
 world knows his orders were carried
 out to the letter and confusion ended.

The army and navy saw another ex-
 hibition of his power this week. Gen-
 eral Miles had been ordered to move on
 Porto Rico, and with the energy he has
 recently displayed he prepared for the
 voyage. Admiral Sampson, however,
 was not so prompt, or perhaps he failed
 to understand the order. At any rate,
 General Miles did not leave Santiago.
 Then came President McKinley, and
 doubtless his words caused no little
 commotion at Santiago. His words
 were few, the report says, but they were
 to the point. They could not be mis-
 understood. Therefore it is but reason-
 able to suppose that Admiral Sampson,
 or whoever was responsible, has already
 remedied the defect and taken steps that
 will prevent further delay. It is but an-
 other instance that President McKinley
 possesses that firmness of character
 which is just now needed in public af-
 fairs.

WHERE IS THE EIGHTH?

Probably on Its Way to Porto Rico.

REPORTS ARE NOT THE SAME

Word From Washington Says They Are With General Miles, and a Pittsburgh Statement Says They Are Anxious to Go With Him—Mrs. McKinley's Message.

The friends of Captain Hill and his company are wondering whether they are on board the Yale steaming toward Porto Rico or whether they are still in the hills above Santiago.

On the strength of the report published in the New York Journal the NEWS REVIEW stated that the Eighth with the other two regiment of the Second brigade were going to Porto Rico as a part of the attacking army. Special dispatches from Washington made the same statement, and today they are repeated, all saying the Eighth is here for Porto Rico.

J. A. Mackaye, the correspondent of the Pittsburgh Dispatch, who is with the Eighth Ohio wherever it may be, has sent the following to his paper under date of Siboney, July 21.

"The officers and men of the Eighth Ohio regiment (McKinley's Own) are much worried because they are unable to communicate with their friends at home. No mail is allowed to leave here, because of the fear that it might be the means of carrying fever germs. The health of the regiment is good, there not being a single case of serious illness. The Eighth arrived just too late for the land fighting here, and is now using every effort to be included in the expedition to Porto Rico."

If the above dispatch is a cable from Siboney there is something wrong with the statements made at Washington, for the Eighth would not yesterday be making efforts to be taken to Porto Rico. Instead the command would be on ship board patiently waiting for orders to move. As General Miles started for Porto Rico yesterday the Eighth is with him and the remainder of the brigade, or it is not; and the "dispatch" quoted above came on the same mail which brought letters from Company E to Liverpool yesterday, or some one has made a mistake.

The Canton Repository yesterday received a dispatch from Adjutant Kuhns, of the Eighth, which contained the words "all well" and that is all. Mrs. McKinley also wired Mrs. M. C. Barber, of Canton, as follows:

"From advices received health of Eighth Ohio is good. No fever."

From all these reports it can be seen that while everybody seems to think the Eighth is physically all right no one knows its exact location.

A special from Akron says:

"A cablegram received in Akron today from a member of the Eighth regiment contained the information that the regiment would certainly be included in the Porto Rico expedition. The Eighth was originally designated as one of the regiments to go on this expedition, but when additional troops were needed at Santiago, the organization, being one of the best equipped in the service, was sent there, arriving too late, however, to participate in the fighting. The cablegram also contained the cheering information that there was no yellow fever in the regiment."

Smith was told to appear this evening at 7:30 o'clock when he will be heard. Smith and his brother paid a fine in Mayor Bough's court last week on a charge of disorderly conduct. It was the same trouble that caused the action before Justice Hill.

THE SPECIALTY IS DEAD

Its Affairs Will Be Quickly Wound Up.

NO ATTEMPT TO REBUILD

At the Meeting of the Stockholders Yesterday Afternoon the Conclusion Was Reached Without Discussion—In Good Condition.

The stockholders of the Specialty Glass company decided yesterday afternoon to wind up the business of the concern and adjust its affairs as soon as possible.

The action means that East Liverpool will not have a glass plant operated by the Specialty, and the numerous projects on foot with the company as the principal factor will come to nothing. It does not, however, interfere with the plan to operate a glass factory on the co-operative plan, for while officers of the company are interested in it they simply act as individuals.

The affairs of the Specialty are in as good condition as the stockholders expected, and the settlement will, it is announced, be satisfactory.

Entries have been received from Salem and Allegheny people, and teams will come from East Palestine, Salem, Salineville and Allegheny.

Come to the lawn fete tonight and take a throw at Weyler.

THE MAN WITH MONEY

Will Be In the City Some Time
Next Week

TO LOOK OVER POTTERIES

Then Something Concerning the Trust
Will Be Known—The Promoter Has
Completed His Work and It Is Now In
Other Hands.

All matters pertaining to the proposed pottery trust have taken another turn, and the local manufacturers who hope the deal will be consummated are anxiously awaiting the coming of a very important personage. His name is not given out, but he is clothed with all kinds of power by the people who expect to put their money into the project.

The promoter who has visited the city many times since the early spring has notified parties interested that his work is done. He has gone as far as he expected, and now the affair goes into the hands of those people who are willing to put their money into the enterprise. One of their number has been selected to come here and look over the ground, and report to his associates. He is authorized to do certain things which will definitely settle the question of a trust. He will be in Liverpool, the promoter says, before the first of August. He is therefore expected to arrive next week.

Beyond the above information the matter is much as it has been for some time. It is said that four concerns positively refuse to enter the combination, and will make the fight alone. They took that position and are steadily maintaining it. On the other hand some manufacturers are anxious to enter the trust, and others will do so if the combination is made sufficiently powerful to withstand assault from without.

WANTS TO GO TO WAR.

But Private George Allen Does Not Expect It.

Private George Allen, of Company E, Eighteenth Pennsylvania, is in the city visiting friends.

Private Allen said this morning that his command was doing garrison duty at Camp Pittsburg, Delaware. He is anxious to go to war, but does not expect to see much of it, as the regiment seems fixed and established.

Private Allen lived at Parkersburg when the war broke out and enlisted in Pittsburg. He is accompanied by his wife.

TEAMSTERS COMPLAIN

Because of Approaches to Jethro Bridge.

There is a great deal of complaint in regard to the way the approaches to the Jethro bridge have been filled, and they are not at all satisfactory to the teamsters who drive over the bridge.

The approaches are all right as far as they go but the trouble is there is not enough of them and a team is compelled to go up a very steep embankment to reach the bridge. The work will probably be completed under the direction of Engineer George.

TWO POOR ONES

Will Be Sent to Their Homes by the Trustees.

The township trustees will tomorrow send a colored man to Pittsburg. The man is ill in a boarding house, and has no one to care for him. He will be sent to relatives.

Mrs. Martha Jacobs, of East End, will be sent to her home below Ravenswood, W. Va. She is in destitute circumstances, and will go to the home of her parents.

HE KNOWS THE CUBANS

Thinks They Are a Lazy, Worthless Lot.

LIKES PORTO RICO VERY WELL

He Is Glad American Troops Are Going to That Place, Because There They Will Find a Most Agreeable Change—A Frenchman's Opinions.

"A Spaniard is a gentleman always, but a Cuban in my estimation is worse than a Mexican greaser." These were the words of Harry Alfredo, a native of France, to a NEWS REVIEW reporter yesterday afternoon.

Mr. Alfredo in speaking of the war between Spain and America said: "In 1890 I went to Cuba and the islands of the West Indies, remaining there about three years. When I reached American soil I was a sick man and even to this day I am still ill. It is not noticeable, but I am far from being well. I know something about Santiago de Cuba and the city of Santiago where so much loss confronted the Spaniards a few weeks ago. The town is situated on a long slope. Its streets are very narrow, not much wider than the alleys of Liverpool. The houses are not ventilated like those of this country, and have no doors. The heat as a rule is 90 degrees and during the day people do very little work. They sleep in the morning, get up at 11, eat a luncheon and take a siesta. In the evening all shops are open, and much work is done. The women sit on tops of houses and plazas in the evening and in this manner enjoy life. It is nothing to see girls and women smoke in Santiago. The streets are not sewered, and the place is generally very unhealthy. The dead of the town are taken to the bay and when the tide comes in the sharks get the bodies. That is the end of the poor Cuban or Spaniard of Santiago.

"I am glad to learn the United States is going to take Porto Rico. This island is the best and most beautiful in the entire West Indies. Much can be said of its scenery and people. At the entrance of San Juan is the Morro which I interpret, high land. There are many Morros in the Spanish possessions. The Morro is the gateway to the town. It was built many years ago, and is no hindrance to the American forces whatever. Its walls are almost greasy, and are crumbling. The harbor is a beautiful sight, and is frequented by many during the day because of its coolness. There is a street leading from the harbor to the hills far away which represents Broadway of this city. This is the main street of the place and all the houses on it are painted white. The walks are shaded with cocoanut, banana and palmetto trees. There is one ice plant on the island owned and run by Americans. Ice sells for one cent a pound. The output is large. Many convents are on the island and but one Protestant congregation is known. Lottery tickets are bought like cigars.

"When the United States troops land at San Juan they will be well received by sympathizers. All the water being used comes from the center of the island and is well protected. Wine is much cheaper than water, but this is a very bad beverage to take.

"Yes, I know the Cubans; they are a contemptible set, lazy and will do anything to keep from work."

Test the matter. We will prove the truth of our assertion.

Printed envelopes, either 6 or 8 1/2 in size, at the NEWS REVIEW, from 95 cents per thousand and up, according to quality. We defy competition in workmanship or material.
